

I am writing to protest Sinclair Broadcasting's plan to air a distinctly partisan "news" documentary prior to the election. It is a flagrant abuse of FCC regulations for them to do this (in 62 markets, no less) and a blatant effort to affect the upcoming presidential election. As a democracy, we are all free to hold our own opinions and preferences, but we are also beholden to laws and regulations.

Please STOP Sinclair from abusing your regulations. If they wish to air this documentary, they should either do so after the election or in conjunction with a countering documentary. The FCC is a governing body, in place to protect our freedoms from just such abuses. I hope you will make every effort to derail this alarming development. Thank you.
